Profile

Data Engineering & Artificial Intelligence graduate from Universidad Complutense de Madrid (GPA 9.3/10) with hands-on experience shipping production AI features using GPT-4.1, Retrieval-Augmented Generation (RAG), Whisper and FastAPI, plus computer-vision systems built on the Segment Anything Model (SAM). Looking to grow as a Junior AI Engineer.

Experience

Escuela Inglesa – The DEL Method App

Madrid

AI & Data Engineer Intern

Feb 2026 – Apr 2026

- Built an educational chatbot on GPT-4.1-mini using Retrieval-Augmented Generation (RAG)
- Developed an automatic pronunciation-assessment pipeline with Whisper
- Integrated Azure Text-to-Speech and Firebase into production workflows
- Designed Firestore schemas and supported a database migration
- Worked in an Agile team using Git and GitHub

Williamsburg

Madrid

Kitchen Assistant

Summer 2025

Worked in a fast-paced, customer-facing environment, strengthening teamwork, organisation and communication skills.

Projects

Bachelor's Thesis (10/10) – AI-Powered Trilobite Segmentation

2025 – 2026

Python, Computer Vision, Segment Anything Model (SAM), FastAPI, Streamlit

- Built a zero-shot segmentation pipeline on foundation models for fossil images
- Shipped an interactive FastAPI + Streamlit app for segmentation and morphometric analysis
- Automated image processing while preserving an expert-validation step

Air Traffic Delay Prediction

2024

Python, Spark, Transformers – Scalable Spark pipeline; evaluated transformer models for airport waiting-time prediction.

Landscape-Image-to-Music Generation

Python, Deep Learning – Deep-learning pipeline that converts landscape images into MIDI compositions.

Education

Universidad Complutense de Madrid

Madrid

B.Sc. Data Engineering & Artificial Intelligence

2022 – 2026

- GPA: 9.3/10 – Bachelor's Thesis: 10/10
- Academic Excellence Scholarship
- Erasmus+ exchanges at ELTE (Hungary) and Vilnius TECH (Lithuania)

Technical Skills

GenAI: LLMs, RAG, Agentic Coding, Subagents, Harnesses, Fine-Tuning, Hugging Face, Ollama

Machine Learning: NLP, Computer Vision, Deep Learning, PyTorch, TensorFlow, Scikit-learn, Whisper, SAM, MLflow

Programming: Python, SQL, Java, C++, JavaScript

Frameworks: FastAPI, Streamlit, Pandas, NumPy, Jupyter, React

Data: ETL, Spark, Databricks, Hadoop, NoSQL, Oracle, Firebase, Firestore

Infra: AWS (Foundations), Google Cloud Platform (Basic)

Tools: Git, GitHub, Agile/Scrum, Claude Code, GitHub Copilot, Codex

Languages: Spanish (Native), English (C2), French (A2)

Awards

Academic Excellence Scholarship & Extraordinary High School Award – Comunidad de Madrid

Fundación Amancio Ortega Scholarship – Academic Year in Canada

Best Position Paper – Global Classrooms (Model UN)
